Instructions for Authors of the journal „ANALYSIS“

Peer Review

All published papers undergo Peer Review evaluation. The Peer Review evaluation is managed by the online system ScholarOne Manuscripts. Please submit your paper online via ScholarOne Manuscripts at <https://mc.manuscriptcentral.com/dganly>. The system will enquire the needed information from you and finally ask you to upload the required data files. All required information for submitting a paper can be found on the journals homepage <https://www.degruyter.com/anly>. Please prepare the manuscript with the Latex Package which is linked to the journal homepage.

Latex Template

Having clicked the template link you will find the Latex Package on the resulting page in the third section of TEMPLATES FOR CAMERA-READY COPY. Please note that you (as a submitting journal author) don't need to use the DG housestyle fonts. The template also works with the fonts usually installed on a computer.

Required Data Files

A -.pdf file of the entire paper, a -.zip file containing the single latex files and a -.zip file containing the single original figure files.

Figures in the paper

Please save each figure in a separate file. The -.eps file saves information without resolution. Apart from the -.eps file the ideal resolution for graphic figures is 1.200 dpi and is 300 dpi for photographic images.

If you have any questions or problems with the submission of your paper feel free to get in touch with the journal editor named on the homepage.
